

into the SIP definition changes in the districts' rules to be consistent with revised federal definitions. EPA is proposing approval of these revisions for the attainment of the national ambient air quality standards (NAAQS) for ozone under title I of the Clean Air Act, as amended in 1990 (CAA or the Act). In the Final Rules Section of this **Federal Register**, the EPA is approving the state's SIP revisions as a direct final rule without prior proposal because the Agency views these changes as noncontroversial and anticipates no adverse comments. A detailed rationale for this approval is set forth in the direct final rule. If no adverse comments are received in response to this proposed rule, no further activity is contemplated in relation to this rule. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. The EPA will not institute a second comment period on this document. Any parties interested in commenting on this action should do so at this time.
